

# QuickBooks® Enterprise 2009/10

## Features & Benefits

An enterprise business solution with up to 30 simultaneous users that is the pinnacle of the QuickBooks range. Includes comprehensive reporting features, industry specific editions, multi-company reporting and is multi-site enabled to help manage the growth of your business.

### Comprehensive payroll management

All payroll information is centralised and available at your fingertips in the Payroll Centre. From here you can perform all payroll tasks, drill down to previous payroll transactions, enter time, create and schedule payments, email pay slips to your employees, and even split their pays into multiple bank accounts.

QuickBooks Enterprise integrated payroll will save you time and money by avoiding duplicate data entry and will help you avoid hassles associated with incorrect payroll withholding.

### Monitor business performance

More than 100 reports and graphs can be generated within the Reports Centre to help you keep a close eye on your business. With just one click you can also drill down into reports to find detailed financial information. You can even convert the report into a PDF file for email, so the recipient views the report just as you see it in QuickBooks.

With QuickBooks Enterprise, you can also quickly and easily create a business plan to help you secure a loan, or plan for the future.

### Multi-site and multi-company reporting

By connecting multiple locations and remote workers you can manage the growth of your business. Parent companies and head offices can also now combine reports with QuickBooks Enterprise to pull data from subsidiaries, divisions or branches.

### Receive product updates, upgrades and unlimited weekday technical support

Stay up to date with the latest enhancements to the world's best selling accounting software. As part of your QuickBooks Enterprise annual licence, you'll receive product upgrades when they are released, as well as product updates and tax tables to help you stay compliant.

Also included in your annual licence is free weekday support, available on a dedicated Enterprise Priority Support contact number.

# QuickBooks® Enterprise 2009/10

## Straight forward tracking of tax and GST

QuickBooks now contains an intuitive and more accurate tax tracking system for day-to-day transactions and for tax and BAS reporting.

Tax Items are now linked to Tax Codes so you can't accidentally assign the wrong sales or purchase tax code.

## Payroll enhancements

- A new **Payroll Setup Wizard** helps first-time users set up integrated payroll with clear and concise instructions at every step.
- All employee records and payroll transactions are now centralised and available at your fingertips in the **Payroll Centre**. Plus you can now customise your employee list to suit your requirements.
- A new **Scheduled Payroll Wizard** helps make payroll processing convenient and hassle free. You can group your employees in the way that suits you, and set group attributes that makes payroll processing even easier.
- You can now **edit or void past payroll payments** avoiding the need to recalculate entire pay cheques, with inbuilt security safeguards and information messages. For example, when changing actual payroll hours and items pay you can work in either Lock Net Pay or Unlock Net Pay mode.
- The new **Enter Payroll Information** window allows for an overall view of the payroll process. You can enter the hours for all employees in a single window making payroll entry much easier.
- Quickbooks now comes with an **enhanced superannuation** module providing more calculation options, including the ability to store multiple super fund details for all existing and past super accounts.

## Automatically track inventory items in different units of measure

You may buy the same item in one unit of measure, stock it in another, and sell it in yet another. QuickBooks can automate the conversion from one unit of measure to another as the item moves through your business, helping you avoid costly mistakes. That means you can buy and sell products in precisely the way your suppliers and customers prefer.

## Operate with up to 30 simultaneous users\*

QuickBooks Enterprise increases efficiency by allowing up to 30 users to work on a company file at the same time – with fast multi-user access.

\* QuickBooks Enterprise includes 10 licences. Maximum simultaneous use is 30. Additional licences required for 15, 20 and 30 multi-users.

# QuickBooks® Enterprise 2009/10

## Improved features for working with your accountant

The Accountant's copy of your company data file has been improved to streamline the way you work, with new features including:

- A new dividing date that clearly delineates which periods are for your accountant to work in, and which are for you.
- Improved warnings for canceling the Accountant's copy.
- Expanded areas that you and your accountant can work in while the Accountant's copy is active.
- Review, accept or reject changes from your accountant as a batch.
- Receive notes and instructions from your accountant inside the Accountant's copy.

## Designed specifically for your industry

Install QuickBooks Enterprise and select from industry-specific editions that offer specialised tools and features unique to your industry. Whether you're an accountant, contractor, professional services firm, manufacturer, wholesaler, retailer or non-profit organisation we have a specific edition tailored to your needs.

## Control your company data

New advanced security features allow you to give employees access to the information and activities they need to do their job while restricting access to over 115 individual reports, bank accounts, lists and activities - ensuring you stay in control of your data.

## Enjoy unparalleled business growth capacity

Add virtually unlimited transactions and lists – including customers, suppliers, employees, inventory, non-inventory, service and other items – so there is no limit to your business growth.

## Specify multiple billing rates for employees and clients

QuickBooks Enterprise allows you to create multiple billing rates for all employees and clients allowing you to apply variable billing rates based upon who did the work. A customisable report also allows you to analyse specific client bill rates and employee billing performance.

## New Features

# QuickBooks® Enterprise 2009/10

### Smarter employee management

The new Employee Organiser allows you to record detailed employee information such as leave, wages, promotions and contacts using the Employee Organiser Wizard, as well as produce sophisticated summaries of your employee's details and history. By storing your important employee information in one easy-to-access location you can better manage your employees and improve business efficiency.

### Reach more potential customers

The easy-to-use QuickBooks Wizard integrates Google Marketing Tools to help you create Google Adwords\*, allowing you to reach more potential customers. By creating your own online advertisements you will increase your business' visibility, as well as help customers quickly locate your business with Google Maps.

\*Google Adwords is an additional product that can be purchased separately.

### Control access to confidential account balances

Controlling access to your confidential account balances is easy with the QuickBooks' Hide/Show preference. Simply switch your Account Balance previews to off to ensure only you have access to your business' confidential account balances.

### Identify multiple company files and users

Quickly and easily identify multiple company files and users by selecting different homepage colours. Helping to ensure users work on the right company file, your business can take advantage of increased efficiency and accuracy.

### Backup your company data automatically

Reckon Tools Backup† makes it easy to securely backup your important company data file. Seamless integration with QuickBooks means your company data file is automatically uploaded to the remote backup server, allowing you to rest assured that your business data is always safe and secure.

† Reckon Tools Backup is an additional product that can be purchased separately. Prices start from \$29.95 per annum.

## Superannuation compliance

QuickBooks now integrates seamlessly with Reckon Tools SuperLink by incorporating a new Super Fund Identification Field that links to a comprehensive list of Australia's superannuation funds; providing you an easier way of managing your Super Choice compliance and superannuation payments.

\*Reckon Tools SuperLink is an additional product that can be purchased separately. Prices start from \$100 per annum for 0-5 employees.

## Easier data file management

QuickBooks allows you to select from 27 Industry-specific Charts of Accounts, meaning you can set up and manage your company file for your specific industry with ease, while improving data integrity with more accurate reports.
